

# Public Health Cubed Seed Funding

A rapid funding mechanism for  
Institute for Public Health  
faculty scholars working in teams

## HOW IT WORKS

Each Faculty Scholar in the Institute for Public Health will receive a virtual credit of \$5,000. If teams of three (see “team” definition below) convene with a new idea or project in public health research or education, they can cash in their combined credits of \$15,000 for the project. Proposals that seek funds to simply continue or supplement existing activities will not be considered, unless there are significant novel features.

Participation in at least one campus-wide forum to highlight the PH3 project or results is required. The Institute will coordinate with project teams to link them to opportunities to highlight their work.

## PH<sup>3</sup> CYCLE 3.0—2019

Idea Submission Deadlines

- Spring: May 31, 2019
- Fall: December 13, 2019 (online application opens September 1, 2019)

*Teams will receive notice of funding award within 4-6 weeks after the submission deadline.*

## ELIGIBILITY AND TEAM TYPES

For cycle 3.0 there are three (3) types of eligible teams. All teams (except “regular” teams) must include at least two (2) faculty members that are Institute Scholars.

To find a list of Institute scholars, visit [publichealth.wustl.edu/scholars](http://publichealth.wustl.edu/scholars).

	# of faculty scholars	# of schools	# of disciplines	# of other partners
Regular	three (3) faculty scholars	from at least two (2) different WU schools	representing at least two (2) different disciplines	
Community Partner	two (2) faculty scholars	from two (2) different WU schools	representing two (2) different disciplines	one (1) community partner
Institute Center Partner	two (2) faculty scholars	from two (2) different WU schools	representing at least two (2) different disciplines	one (1) Institute for Public Health Center

## MORE INFORMATION
