Postdoctoral Fellowship Opportunity at Washington University in Saint Louis - Job ID 46336

DATE: November 2019

JOB TITLE: Healthcare Innovation and Implementation Research (HIIR) Post-Doctoral Fellowship

POSITION SUMMARY: HIIR fellows will lead dissemination and implementation research projects that study the development, implementation, and spread of care delivery innovation projects at BJC/WUSM. This work will be performed in close collaboration with the WashU Center for Dissemination and Implementation and the BJC/WUSM Healthcare Innovation Lab. Successful fellows will produce rigorous studies that are published in high-profile, peer-reviewed publications and successfully obtain internal and external grant funds to support their work.

POSITION REPORTS TO: Elvin Geng, Director, Center for Dissemination and Implementation; and Tom Maddox, Executive Director, Healthcare Innovation Lab

BACKGROUND:

The Center for Dissemination and Implementation at the Institute for Public Health at Washington University in St. Louis is a national leader in advancing implementation research.

In service of BJC Healthcare and the Washington University School of Medicine’s missions, the Healthcare Innovation Lab catalyzes research and development for innovations in care delivery.

These two units are collaborating to host a post-doctoral fellowship in Healthcare Innovation and Implementation Research (HIIR) project. Ongoing projects include home-based, biometric monitoring of heart failure patients, data platforms to link health systems with social service organizations, and the innovative applications of non-emergent medical transportation using ride-share businesses to catalyze innovations in care delivery and patient outcomes.
