Institute for Public Health

Harnessing the strengths of Washington University to address the complex health issues and health disparities facing the St. Louis region and the world

**CONNECTOR**
We improve, amplify, and support public health efforts in St. Louis and around the world.

**CONVENER**
We bring together diverse disciplines to share knowledge, form partnerships and turn ideas into action.

**CATALYST**
We inspire innovative solutions to today’s most pressing public health challenges through targeted events, seed funding and other opportunities.

**CENTERS**
- Center for Community Health Partnership & Research
  Aims to reduce disparities and improve health and wellness in the region by supporting community and university partnerships
- Center for Dissemination & Implementation
  Promotes the adoption of proven treatments, programs and strategies for routine practice
- Center for Health Economics & Policy
  Encourages evidence-based research to improve health and disseminates this work to policymakers and other stakeholders
- Center for Human Rights, Gender & Migration
  Bridges research, policy, and practice to improve evidence-based response to serious human rights abuses
- Global Health Center
  Improves global health through programs and partnerships across the university and around the world
- Harvey A. Friedman Center for Aging
  Maximizes opportunities for health, security, and engagement among older adults
- Public Health Data & Training Center
  Amplifies public health knowledge through data sharing, strategic partnerships and training

**INITIATIVES & PROGRAMS**

**Africa Initiative**
An interdisciplinary endeavor committed to creating teaching, learning and cultural opportunities for faculty, staff and students focused on the African continent

**Gun Violence Initiative**
Explores three key themes: What we know, what we need to know and what to do about gun violence

**Life Outside of Violence**
(St. Louis Area Hospital-Based Violence Intervention Program)
Helps those harmed by stabbing, gunshot or assault receive the treatment, support and resources they need to find alternatives to end the cycle of violence

**Summer Research Program**
Through this competitive opportunity, students from across the country work closely with WashU faculty mentors on public health, global health and aging research projects

**LEADERSHIP**
William Powderly, MD, Larry J. Shapiro Director
Victoria Anwuri, MPH, Associate Director
